I come to you with a heavy heart
Don't know quite where to start
No one has ever loved me like you do
Like you do

You treat me like you just don't care
But we both know darling, that's not fair!
But no one has ever loved me, not like you do

I can explain
Why I caused you pain
Let me tell why
I made you cry
Cause you hurt me
Like no one else before you
But no one has ever loved me like you do

Now you wanted me all to yourself
But I just found out you've got somebody else!
And oh, but no one has ever loved me like you do

I can explain
Why I caused you pain
Let me tell why
I made you cry
Cause you hurt me
Like no one else before you
But no one has ever loved me like you do
