Hook:

"Love will make you do right"

Uh got my money flippin' got my mind trippin'

"Love will make you do wrong"

Got my money flippin' got my mind trippin'

"Love will make you..."

Verse 1:

Use your mind over your riches make you pay your
dues suffer the

consequences

To improve your condition

Now I see why daddy locked up when he spoke up on the
system

We just some rats poisoned by the snakes venom

Feel it the only respect is worth killin'

So there fo' no silly hoe gonna stop my cash flow

Before I let that happen I'm a let that ass go

Theres other women swimmin' in that sea there is

To let one change the way I'm gon live (say what?)

There's other women swimmin' in that sea there is

To let one change the way I'm gon live

Hook

Verse 2:

Equilibrium become off balance

Problems at the crib causin' me to mismanage

My financial situation but this is what I call (what?) a
circumstantial

indication

That it's time to vacate FEEL straight and escape

From the whole ordeal cause if you put 'em in they
place you catch a case

Face with your third strike 25 to life

But ever since I was young I've come to recognize

That it never took love to run a enterprise

So I devise schemes to neutralize teams

Dippin' in my chocolate city smokin' plenty

Green the bombos on this side of the shore

Niggas that try to trip find 'em quick to draw

Not for tryin' to take me out

But for tryin' to take food out my kids mouth

Hook

Verse 3:

Wanna start livin' right your religion

So you pray got home total your bills and steal the
same day

Some say it's a lack of faith but let me tell ya homey

My child ain't ever went to bed hungry

I make it happen by rappin' and sackin' up

The most exotic narcotics and I only show my people

love

I'm just a westsider 24-7 watchin' my back for the ridas

And stayin' away from the P.D. who I pray will never
catch me

With more than an O.Z. low key is my motto

I'm feelin' enough guilt cause I keep milk in my baby's
bottle

That's all I know so fuck what you say about how I make
my doe

Hook
