Lights are turned down way down low  
Get on the floor now here we go  
Move a little closer rock my body  
Feelin' kinda hot but don't get naughty

My baby turn me on  
My baby turn me on  
Give me what I want - want what I want  
You know what I want - I want it baby  
Give me what I want - want what I want  
You know what I want  
Dance with me baby  
My baby turn me on

Crank the noise up way up high  
I could dance to this all night  
Don't stop baby don't you leave  
Cause I can feel you feelin' me
