You sit there in your silence
I dont know what your hiding
Am i supposed to read your mind
I can feel you getting colder
Wanna tell me that its over
Your already calling out im blind

chorus

Say what you want scream it out loud
dont hold it back tell me now
im listening
i wanna know whats in your head
to many things left unsaid
dont you think its time to speak your mind
im listenin

Dont be afraid to hurt me
ill be fine dont you worry
you wont see me fall down apart
you can tiptoe around it baby
oh but dont you think just maybe
youve already broken my heart

chorus

if you dont love me anymore i understand
just dont drag this out baby be a man

Say what you want scream it out loud
dont hold it back tell me now
im listening
i wanna know whats in your head
to many things left unsaid
dont you think its time to speak your mind
im listenin
im listenin
im listenin
