It's time to make a start
To get to know your heart
Time to show your faith
Time to take your place

In every speck of dust
In every universe,
When you feel most alone
You will not be alone

Just shine a light on me, shine a light
I'll shine a light on you, shine a light
And you will see my shadow on every wall
And you will see my footprint on every floor

Just shine a light on me, shine a light
I'll shine a light on you, shine a light
'Cause when your back's against the wall
That's when you show no fear at all
And when you're running out of time
That's when you hitch your star to mine

We won't be leaving on the same road that we came by
We won't be leaving on the same road that we came by
