In this settled-down spin
We have nothing to expect that we have not seen yet
Feel your gaze begin to drift
There is a cold indifference creepin' in
We wake up on fire
Cold wind in our eyes
Our mouths frozen in fear
As something wicked showed up here
And We wake up

(Chorus)

And I fear we've all gone and lost our minds completely
Cause I fear we've all become way too careless with our
time
So if you'd
Talk with me,
Speak with me,
Please convince me that I will
Learn from this,
Grow from this,
Change while I can
Cause I can

In this settled-down spin
We couldn't change the way it sits
So we all just learn to live with it
There's something waiting to sink in
Our indifference to this
Cause we wake up

(Chorus)

And I fear we've all gone and lost our minds completely
Cause I fear we've all become way too careless with our
time

So if you'd
Talk with me,
Speak with me,
Please convince me that I will
Learn from this,
Grow from this,
Change while I can

Cause I can

(Bridge)

No please

No questions

This is severe

Just come to the window

I need you here

Our world is

Our world was

This was our year

Our world was supposed to be!

I need you here

(Chorus)

And I fear we've all gone and lost our minds completely

Cause I fear we've all become much too careless with
our time

So if you'd

Talk with me,

Speak with me,

Please convince me that I will

Learn from this,

Grow from this,

Change while I can

And Talk with me,

Speak with me,

Please convince me that I will

And Talk with me,

Speak with me,

Please convince me that I will
