"Peace on Earth"

Visit "[Peace on Earth](#)" on MotoLyrics.com

It's nothing serious, just a simple case of bottles, I left
behind

It's nothing serious, just a wooden case of bottles, I left
behind

It'll go away someday, well alright

It'll go away somehow, come on do your thing

It's nothing dangerous, just a solid block of concrete, I
left behind

It's nothing dangerous, just a solid block of action, I left
behind

It'll go away someday, well alright

It'll go away somehow, come on do your thing

Peace on earth, God in heaven, peace on earth

Living in heat, memory melting in pools of dirt

The genetic plaything is eating what I left behind

It'll go away someday

Walking in the streets of pnom penh, giving me
dangerous feelings and then

Seeing those bottles in motion again, cruising in
cocktails

Peace on earth, God in heaven, peace on earth
