JesusÂ´ praying for rain, lightning flashes around
tThe prophet is screaming, his head hits the ground
You should hear the warning if you read the signs
Play with your own life but don'T play with mine
The shape of things to come
There was Moses and me when the wind took the
change
He hands out the menu, he moves out of range
If you knew the action, you see us so blind
Play with your own life but donÂ´t play with mine
The shape of things to come
YouÂ´re not invited to stay, youÂ´re not intended to go
Can you tell the future, I donÂ´t think so
You should hear the warning if you read the signs
Play with your own life but don't play with mine
The shape of things to come
You're living your way, I live in mine
May be tomorrow we will collide..
