I was walking in the rain  
When the angel of my intuition whispered hello  
And then I turned around there was you  
Well, I was quite surprised to face that kind of  
incarnation  
Love is always unexpected, love strikes blind and  
undirected  
An it's amazing how my life became the wildest game  
of all  
I never knew without your love  
And since I fell for you I fail to brave the heavy weather  
Raging round the axis of my heart  
And I don't, I don't need to..

Whenever I see you I want thunder and lightning  
Whenever I touch you I feel thunder and lightning  
Whenever I hold you I feel better than the time before  
That's what I want, thunder and lightning for evermore

There were times when I was down  
There were times when all my hopes had faded  
My whole life just seemed to be a senseless quest for  
energy  
But love is the answer, love is all we need my friend  
Now you came & changed the weather  
Now I wanna live forever

Yes I admit I'm playin' with powers that I can't control  
But I tell you, I will do the best I can  
We're on a crash course plane that's heading down to  
paradise  
And that is the intention of the plan and I don't need no  
heaven

What do you want? you know it! what do you want then?  
I tell you what I want! I tell you what I need!!  
I don't need no heaven!!!  
I need thunder and lightning, don't need no  
heaven!!!!!!!!!!
