You were gone, I was with you, and we both got caught  
in the headlights  
I was out on a limb, now I'm ready to jump, I'm free  
again

All I want is to go get lost somewhere

You got me spinning like a top now  
going round in circles  
I don't want to ever stop  
You got me falling from the stars now  
I don't want to let go  
this could be forever

They were wrong, now its midnight, can we both just  
stay here alone  
you should know, in the moonlight, no one can make  
me go home.

All I want is to go get lost somewhere

You got me spinning like a top now  
going round in circles  
I don't want to ever stop  
You got me falling from the stars now  
I don't want to let go  
this could be forever

You got me spinning like a top now  
going round in circles  
please don't ever stop  
I've got you starring at the stars now  
falling all around me  
I'll be here forever

Why did we wait so long  
they wont even know that we're gone  
why did we think that they'd ever miss  
lost in a nights rush, lost in a kiss.

You got me spinning like a top now

going round in circles  
I don't want to ever stop  
you got me falling from the stars now  
I don't want to let go  
this could be forever

you got me spinning like a top now  
going round in circles  
please don't ever stop  
I've got you staring at the stars now  
falling all around me  
I'll be here forever
