Memories come flooding back to me
Of how we used to be
And all the little things
Now it's gone
And time is rolling on
Oh, how can I be strong,
when my world is crashing down?

You and I, we made a good team
Lost some respect but we still had our dreams
You're not everyone's cup of tea
But a favorite of mine
You're immature, and I'm a hot mess
But mixed together we could not have cared less
I'm not everyone's favorite voice
But you said I sound fine

And she said, "is he worth all this pain?"
I don't know, but...

I've said a million sorrys
And a thousand goodbyes
But every time I walk away
I'm feeling dead on the inside
Is he worth it?
Well, I truly do not know
But if not, then why is it so hard to let him go?

You made me laugh and the glances we shared
You held my hand when no one else was there
It didn't matter if those people stared
When I sat on your floor
When you're mad, you wear a cute grin
It's just one of those quirks I'm missing
I swear I feel you, but it's just the wind
Still my heart hopes for more

Come back to me
I'm still waiting
For you to see
How much you miss me

I remember every word you say to me
"I can't look at you without smiling"
