It's raining outside  
But you can't rain on my parade  
'Cause I've fallen in love with my TA  
He's got pretty blue eyes  
The color of morning skies  
I can't wait to see him next Monday

And when he smiles  
I have a better day

This class is long  
But you're worth the time  
'Cause I'll probably never find  
Another of your kind  
You're impressed by my art  
But even more by my heart  
Sometimes I can't seem to get you off my mind

And when you smile  
I have a better day

And when you do your little dance to the radio  
It's cutest thing I've ever seen  
I thought I'd should let you know

It's raining outside  
But they can't rain on our parade  
I bring out all the colors  
In your plain world of grey  
So wrap me in your arms tight  
And watch as our dreams take flight  
I just want to see you everyday
