CRYSTAL SHADOW

[You] Whisper in the night,
[You] Break through from the sky.
I long for you, I call your name,
But no reply. There is no way.

[You] Still come in my dreams,
[Your] Face in fitful gleams.
I look for you, I rush to you.
But all in vain, that is not you.
I cry with pain...

[You] Left without a word,
[You] Vanished. Who's to blame?
A lonely room, a lonely world,
A lonely night, a lonely day.

You've gone into the night,
You've flown up to the sky.
And only a shadow like a vision,
Crystal shadow's left behind.
And fades away...

Crystal shadow...
Crystal shadow...

Whisper in the night,
I hear you break through from the sky.
I long for you, I call your name,
But no reply. There is no way.

Come down from the sky,
Forever come out of the night.
And only a shadow in my vision,
Crystal shadow soars behind.
