Now this perfect day, fade away, oh woah  
I don't wanna lose you  
'Cause we built this love to last forever  
And this is gonna be a new sensation

I don't wanna run, 'round and 'round in circles  
I'm just gonna tell you that you're the one for me  
I cannot believe you think I'm a stranger  
Hear me once again  
I want you by my side  
Now this perfect day, fade away  
I want you to know that this will last forever  
Don't you think you know a better way  
I haven't got a clue  
'Cause I've found somewhere for us to go

You make me feel alright and let my body move you  
Take you to the rhythm and make you dance  
You make me feel alright and let my body groove you  
Make you feel the music and hear this trance (x2)

[Rap]

Anything girl, you dig on the menu ?

You know how I feel when you come around me  
I can hardly think, lose my only one  
I will wait for you, so take your decision  
What's up on your mind, I need your love tonight  
I won't let you go  
Come and stay  
Hang on to my love  
Take my chance and get it  
I will promise you  
Your dreams come true  
This is what I do  
Here's the chance

You make me feel alright and let my body move you  
Take you to the rhythm and make you dance  
You make me feel alright and let my body groove you  
Make you feel the music and hear this trance (x2)

[Rap]

Anybody diss this, catches the finger and fist,  
Get with this when it thumps,  
You make me ooh when you shake your rump  
It's like ooh I just can't handle it  
You're the girl that I have to scandal with  
I wanna hold you, mold you, fold you, bend you,  
Anything girl, you're on my menu

You make me feel alright and let my body move you  
Take you to the rhythm and make you dance  
You make me feel alright and let my body groove you  
Make you feel the music and hear this trance

You make me feel alright and let my body move you  
Take you to the rhythm and make you dance  
You make me feel alright and let my body move you  
Make you feel the music and make you dance
