Human dradle spinning around

How do you not dizzy up and fall down

Is that what happens when feel you the sound

But if that was me I would be on the ground

I would not get up, I would dance on my back

Throw my legs up in the air like I don't care

And waver them from side to side

Then I bust into a windmill

Then right into a backspin

Freeker right by the speaker

Never seem to get enough

Priceless expression when space is possesion

Like yeah, that's the stuff

Electronic, stereophonic, comin' from the left and the right

It's good in the day, I like it that way

But it's perfectly normal at night

Rave girl with a lollypop binky

And a face full of metal

Her eyes is as wide truck and somebody just floored the pedal

Her mental clearance is high, but the overpass is low

She ducks her head, holds on tight

When she gets through she lets go

'Cause shes a

Tweaker right by the speaker

Never seem to get enough

Priceless expression when space is possesion

Like yeah, that's the stuff

Electronic, stereophonic, comin' from the left and the right

It's good in the day, I like it that way

But it's perfectly normal at night

Yellow shirt bouncers gather in the corner

Feel like the room just got a little warmer

Point at you, what up with that?

But don't worry, yo, I got your back

But one of them dudes is big as the both of us

Big old arms, big as a school bus

Looks like he could snap us in two

I ain't got no gun, so I think we should run

I don't know about you, spinning around How do you not dizzy up and fall down? Ah, that's what happens when you feel the sound But if that was me I would be on the ground I would not get up, I would dance on my back Throw my legs up in the air like I don't care And waver them from side to side Then I bust into a windmill Then right into a backspin Freeker right by the speaker Never seem to get enough Priceless expression when space is possesion Like yeah, that's the stuff Electronic, stereophonic, comin' from the left and the right It's good in the day, I like it that way But it's perfectly normal at night
