Tie, tie, tie you down
The chains you wear
They keep you bound
Too long...

Slap, slap, slap your lip
When the master
Cracks the whip
You crawl...

Get down on your knees
That's where you all will be
Dog's that lick the feet
Like dog's that lick the feet (x2)

Down, down, down on four
You keep coming back for more
You whore...

Bound, bound, bound and gagged
Then tossed aside like a dirty rag
Used and abused...

Get down on your knees
That's where you all will be
Dog's that lick the feet
Like dog's that lick the feet (x4)
