Rapid eye movement bores the shit right out of me.
But that don't mean that they suck objectively.
They're fine in some eyes.
In mine, they're better without sound.
Some like the moon half way, others like it round.
Chorus:
Because it's a free world we're living in.
So what I say is my opinion, not necessarily yours.
Some say you're crazy, others tell you you're a fool.
Some say you're lazy and you have to learn the rules.
Grow up just like us and we swear you will be cool, well,
Shit I'm a crazy fool cool without your rules,
Because it's a free world we're living in.
So what I say is my opinion, not necessarily yours.
Falling was against the rules everything is breaking.
Don't you bend or break the rules everyone is mistaken
once.
We're mistaken once.
It's a free world we're living in.
But what you say is your opinion, not necessarily mine.
It's a free world we're living in.
So what I say is my opinion, not necessarily yours
