### "When She's Gone"

Visit "[When She's Gone](#)" on [MotoLyrics.com](http://MotoLyrics.com)

#### VERSE 1:

Oh it seems like yesterday  
That she ran away  
She never even said goodbye

And now all that's left behind  
Are the memories  
Of all the nights you made her cry, well...

#### PRE-CHORUS 1:

So many times you should have  
Apologised and tell me  
If you knew where she was now...

#### CHORUS:

What would you do, to make it right  
Broke her heart but how do you unbreak it  
And tell me how to make it right  
When she's gone, when she's gone

Gone, gone... gone...

#### VERSE 2:

She still fills the room  
Just like a flower in bloom  
You move your pillow to her side of the bed

Looking at the door  
Just like she's coming home  
It finally dawned she meant what she said

#### PRE-CHORUS 2:

She's still so fresh in your mind  
If only you could rewind  
If only you'd take your time

#### CHORUS 2:

What would you do, to make it right  
Broke her heart but how do you unbreak it  
And tell me how to make it right  
When she's gone, when she's gone

Oh, yeah... yeah, when she's gone... So...

BRIDGE:

You buy alot of stuff to try and make you happy  
But nothing fills the space where you know she should  
be  
'Could fill up every room and it could still be empty  
It's only stuff...  
That's all it is... When she's gone...

Oh right...

VERSE 3:

Oh when she's gone away, oh baby...

It seems like yesterday (seems like yesterday)  
Lord it seems like yesterday... oh

PRE-CHORUS 3:

So much time has gone by  
But i just don't know why  
I can't get over you

CHORUS 3:

What would you do, to make it right  
Broke her heart but how do you unbreak it  
And tell me how to make it right  
When she's gone, when she's gone.. yeah

CHORUS 4:

What would you do, to make it right  
Broke her heart but how do you unbreak it  
And tell me how to make it right  
When she's gone, when she's gone
