Take a little minute love, take a little time
To listen to this record love
It's gonna be just fine
It's all about honesty, that won't do you any harm
We're going to work our asses off
It's gonna take a lot of our energy; it's gonna take
some time
But this is not a crime, stepping out of line
I won't have peace of mind
Till it's over, till it's perfect and fine.
Now a little serious.
We're gonna be just fine, a little bit hilarious.
Our ass is on the line.
A little bit of modesty won't do us any harm.
We're gonna work our asses off.
It's gonna take a lot of our energy it's gonna take a
some time.
But this is not a crime, stepping out of line
I won't have peace of mind
Till it's over, till it's perfect and fine
Something in my head tells me to break.
It's gonna be all just fine.
A little bit hilarious it seems to be I know.
But everything will work out fine.
Now a little obvious. another chorus line.
It's coming in a minute ,it's gonna be just fine.
A little bit of modesty won't do us any harm.
We're gonna work our asses off.
It's gonna take a lot of our energy; it's gonna take
some time.
But this is not a crime, stepping out of line
I won't have peace of mind,
Till it's over, till it's perfect and fine
