Stairs of a cathedral
It's only one step to the breach
He hitched her hands
He hit her a blow
She's helpless and her hate grows
She hears the curfew - a sign of hope
But they leave her call unheard
Stairs of a cathedral
The way for deliverance and pain
Stairs of a cathedral
It's only one step to the breach
Non-performance - she can't take it longer
If church is worth the need machine
These clergymen will see what they've done
Down on the belfry she's a believer
