"You And The Father"

Light the candle once again, the one you seek ain't in,
But we'll all wait here patiently.
Is he a fighter or a friend, and all of this will end,
And let the walls come over me.
And you and the father radio in, and give them
Everything, everything to bring us back again.
Time to talk or time to run, the shadow in the sun,
Creepin' out from under me.
And oh, surrender now your face, and let them fall
from
Grace, the devil out from under you.
And you and the father radio in, and give them
Everything, everything to bring us back again.
And you and the father radio in, and give them
Everything, everything to bring us back again.
