I'm lazy and I'm crazy

And I don't think straight working is for me

I kick this and I quit that

But I grab hold of things that make me happy

I'm movin' improvin' nothing slowing me down

A changer to a stranger

Because of the different things that I've seen

You know me and I'll sing you

A picture of everywhere that I have been

Places I go all show life to me

Things that I learn return musically

This is My Habit

Spread it around
