Caught in the dark in the hall by the door  
Caught by the spark of a camera  
Some natives think photographs steal your soul  
And I wonder what they're after  
Shoulda Been Me Shoulda Been Me and you  
Shoulda Been Me and you  
Shoulda Been Me Shoulda Been Me and you  
And I'm falling all over  
So much to say and so little time  
It's just minutes to midnight  
Some people start a new year everyday  
It's almost daylight  
You take your time I take my time  
Soon our time is gone  
Happens everyday someone walks away  
Someone's hanging on
