Why are you not with me tonight?

Why are you so hairy and alright?

Fuck me, take me down deep now

Run dead, I think you are around now

Let me see, because I don't think it's you

Sittin here all day and night

Yes you're stuck here too

And then he said laughing is what I forgot

And then she said laughing is what you will learn

I will wind this string around your head

As a sign I do love you

Don't drive me fuckin' mad

And then he said, laughing is what I forgot

And then she said laughin' is what you will learn

You are just a naughty boy lovin that little joy

You are a naughty boy playing that little toy

My god you just try to break me

And then he said laughing is what I forgot

And then she said laughin' is what you will learn
