Hi you are the frame who calls my name
I am the well you drain
I don't like beating all the days
The day she stays
She's sad in front of my face
Now I've completed this
This mental kiss you're calling

Hard...

Why are you pickin on me?
Always pickin on me
Guess I did wrong
You are pickin on me
Always pickin on me
But I know nothing
I don't care how you're going to prepare

Why don't you let me stay the way I am
I like this place right here
Can't stop the drenching of the well in wich I fell
Please get me outta this cell
Well done the teacher said
You've done a great job but it's

Hard...

Why are you pickin on me?
Always pickin on me
Guess I did wrong
You are pickin on me
Always pickin on me
But I know nothing
I don't care how you're going to prepare

Now I hate those times
When they're commin after me you know
When everybody's singin about a dancin queen

Oh no, did you feel the blow
Well I can say i saw you dancin at that fucked up show

Now burn
Nothing rocks unless you come to burn
Nothing rocks unless you come to burn
Nothing rocks unless you come to burn
Nothin but your other to rock

Why are you pickin on me
Always pickin on me
Guess I did wrong
You are pickin on me
Always pickin on me
But I know nothing
I don't care how you're going to prepare

Hey baby
This is the last time that you screamed at me
Before I think about running away baby
This is the last time that you screamed at me.
