### "Rain"

Visit "[Rain](#)" on MotoLyrics.com

Rain falls so hard, i can't sleep at night  
You look so right, so how could i fight  
You will be there, because you always cared  
Love is my friend

Where were you, when i needed you  
You were there

I fall to my knees  
That's when i pray  
That's when the tears fall  
That's when i say

Where were you, when i needed you  
You were there

(chorus)  
You wait there  
You wait for me

I know that you're there  
You've called my name  
And it's one more last time  
For me to say
