Ooooh yeah
Yeah,yeah,yea,yeah
HmMMM

No more pretending
Now go to
Learn how to live my life - my way
I know I'll make it without you
Turning back is not my style

I will forget about you baby
That's what I'm gonna do right now
Clearly vision tomorrow
Walking tall - now I'm strong

I feel the cold wind blowing through my heart
The loneliness strikes
I wanna release everything that I've got
Yeah

It's a natural reaction to your love
It's a positive reaction of my heart
I don't want your destruction take away what's inside
me

It's a natural reaction to your love
It's a positive reaction of my heart
But for all the satisfaction I can get in my life
Without you around
