### "I Am The Wolf"

Picture in the distance  
An infinite vision of life  
Pure and untarnished  
Reflecting the strength of nature  
Visions so solemn  
A lone wolf in the moonlight  
Calling for his brethren  
A cry for his kind  
For our pride and our glory  
I am the wolf

Solitary and isolated  
The symbol of the purest north  
A king in his icy land  
I am the wolf  
For our pride and our glory  
I am the wolf  
For our land and our culture  
I am the wolf  
Within the shadows of night, I am there.
