

Radial Angel "Rain"

Visit "[Rain](#)" on MotoLyrics.com

rain falls so hard, i can't sleep at night
you look so right, so how could i fight
you will be there, because you always cared
love is my friend

where were you, when i needed you
you were there

i fall to my knees
that's when i pray
that's when the tears fall
that's when i say

where were you, when i needed you
you were there
(chorus)
you wait there
you wait for me

i know that you're there
you've called my name
and it's one more last time
for me to say
