In the year of our Lord 992, the Justified Ancients of Mu
Mu
Set sail in their longboats, on a voyage to rediscover
the Lost Continent
After many months on perilous, stormy seas, they're
search was fruitless
Just when all seemed lost, they discovered AMERICA!
The music you are about to experience is a celebration
Of the 1000th anniversary of their founding of this
great nation...

The lyrical prophet just can't stop it
The way I drop it, I change the topic
Get hype to the tongue of the native
The soul creative, KLF made it
We came a long time ago, 9 9 2 but you did not know
So if you think that the going get's rough
Just remember...What time is love!
I wanna see you sweat (etc)
America! (etc)

Take the chance to advance and participate
I devastate, the rhymes are great
We had to pass the Pyramid Blaster
The JAMs are here; Put you in a rapture
To make you shake through, break you take through
Right in the path to what they call the Mu Mu
KLF - Can you get enough?
Bring the break - What time is love!

Be young, be free, the American way!

America...

Be young, be free, and live (etc)
Boston... Philly... Seattle... Frisco...
Dayton... Toledo... Detroit... Maine...
Phoenix... Vegas... Rio... Portland...
Salt Lake... Tulsa... Denver... Jackson...
Dallas... Texas... Atlanta... Georgia...
St Louis... Memphis... Salem... Raleigh...

L.A. ... Houston... Brooklyn... New York...
Ackron... Miami... Chicago... Compton...
We Love You!!!

The final chapter, copasthetic, poetic
When I'm done this calls for anaesthetic
Make way for a positive thing
A theme, a dream and a man might sing
We came a long time ago, 992 but you did not know
So if you think that the going gets rough
Just remember...What time is love!

I'd like to thank the Justified Ancients of Mu Mu
Furthermore known as the JAMs
Also known as the
K! L! F!
Goodnight America! We love you!
Thank you the United States of America!
Alright! And Goodnight!

Were those guys for real? I mean what's with
All this Justified Ancients of Mu Mu shit?
