"Stay"

Visit "[Stay](#)" on MotoLyrics.com

Life goes on

In a lonely town

Baby in love

She feels so down

Shaded heart

May seem unfair

But I think she knows

The sun's still there

All she has

I'm sure she'd give

For just a chance

A chance to live

Now, listen here

And don't forget

Just be yourself

With no regrets

Stay, Shanti always, I want you to stay

Here and now

Now and then

We loose ourselves

'Till found again

Now open eyes
Will help you see
The choice is yours
To have or be
All you are
And all you'll be
Is all inside
Oh, don't you see
Now take a drive
Through the scenery
And know inside
You will always be
Life goes on
And you're moving on
Though it's lonely here
and you cry that tear
Don't you wait
Don't hesitate
Sometims it's strange
When things you love
Are things you hate
