"Murder City Nights"

Moving to the sound of the midnight masses
Fighting off terminal seventies stasis
Cruising down Woodward gotta find me some action
Looking for a lover with a power reaction

Murder city nights, oh yeah
Murder city nights, oh yeah
Murder city nights, all right

Hanging on the edge of my self control
Looking in the mirror for the highway patrol
My brain is wired down to my hand
Gotta keep movin' 'cos I know I'm a man

Murder city nights, oh yeah
Murder city nights, oh yeah
Murder city nights, all right
