It was a cold day in December  
I remember it so well  
You captured my whole being  
And you left me in a spell

You warmed my heart with passion  
desiring all of you  
You left me cold in the summer  
I wish that I had only knew but I

Chorus:

I never knew that you would be the one  
to come along and snatch my heart and run  
Away from me with no explanation why  
I never knew what we had would die  
All I wanna do is hide away  
From all the hurt and pain of yesterday  
Can't you see the tears, the hurt inside  
I never knew, please tell me why

All the nights you left me crying  
Keeping company with my fears  
That some day you'd leave me lonely  
And that's exactly what you did  
I swore that I was your baby  
the darkest night for you I'd bear  
Now that I need you here with me  
I call your name and your not there

You left me standing  
so empty-handed  
Out in the cold  
How was I to know  
That my love didn't matter  
And my world was shattered  
Cause you left me here  
drowning in tears, oh why

Chorus:

I never knew that you would be the one  
to come along and snatch my heart and run

Away from me with no explanation why  
I never knew what we had would die  
All I wanna do is hide away  
From all the hurt and pain of yesterday  
Can't you see the tears, the hurt inside  
I never knew, please tell me why

Bridge:

After we made plans to spend our lives together  
I thought what we had was meant to be forever  
Oh why did our love have to go away  
I don't know how, I don't know when  
All I know is I'll never love this way again

Chorus:

I never knew that you would be the one  
to come along and snatch my heart and run  
Away from me with no explanation why  
I never knew what we had would die  
All I wanna do is hide away  
From all the hurt and pain of yesterday  
Can't you see the tears, the hurt inside  
I never knew, please tell me why

I never knew, I never knew,  
I never knew it could be like this (repeat)
