1 - [Deborah]:

You've been cheatin' and telling me lies
You've been creepin' while I'm sleeping at night
And you've been chasin' every girl in sight
You've been messin' around and lying down
It's over now

[All-Star]

Yo, now whatcha sayin'?

Baby, it's over
Tryin' to forget about
Ordinary things, typical, predictable
Ooh, baby I knew the end before we started, hmm
You got me feelin' like I owe you something
Cuz you were there in times when I had nothing
But you threw it all away with the shady things you do

2 - Baby, please forgive me
For what I'm 'bout to say
And what I'm 'bout to do
I can't take no more
I know you ain't been true
Ain't got no love for you

Repeat 1

Relying on my intuition
And pass it off as a suspicion
But you were just so bold
You kept putting it in my face, yeah
I can't deny I let you hurt me, oh no

Repeat 2

Repeat 1

You couldn't have appreciated my love
The love that we shared
You made a fool of yourself
So keep on walking

Don't keep on talking

[Dyme]:

And you're not, what?

Dyme baby put it down

You ain't know

I got to go

What you thought

I was gonna stay with you

When I know about all that dirt you doing

The creeping, cheating

Sneaking out the house while I'm sleeping

I doubt that, like I'm havin' it

Go ahead with them loose and half-naked chicks

Thinking that they too Dyme for that

I bet that, when I'm gone, y'all miss the cat

It's over now, no Rover now

You getting back to your Nova now

I bet you didn't know I labeled you a clown now

See me getting dough and wanna come around now

Stop! Talking 'bout your cars, your rocks

His and her's furs with that played out fox

Diamonds, dead props to those chicks

Look back

All you gonna see is backside and hips

Repea
