Here I was rollin' in my car  
I drove down past the park  
Spotted a couple  
Who wasn't trouble  
And they were doin' no harm  
She leans down and kisses him on his lips  
To give her love back he rubs her hips  
Oh, I could feel it  
I felt their passion  
Running through my warming veins

So bad I wished that that was me  
Make love like they do on TV  
I see, all I seem to see  
Is you and me

So bad I wished that that was me  
Make love like they do on TV  
I see, all I seem to see  
Is you and me

How I wished that could be  
Baby you and me  
To become reality  
The perfect love fantasy  
If I had one wish it would be  
Baby, you and me  
To become reality  
In the perfect love fantasy

Now I'm not sayin' something's wrong with this  
relationship  
But I know one thing, boy  
It could be better  
We have bedroom secrets  
Sealed with a kiss  
But nothing compares to this  
Talkin' about that real love  
That true love  
Can you feel me?

Someday it will you and me  
Makin' love like they do on TV  
I see, all I seem to see  
Is you and me

Someday it will you and me  
Makin' love like they do on TV  
I see, all I seem to see  
Is you and me

How I wished that could be  
Baby you and me  
To become reality  
The perfect love fantasy  
If I had one wish it would be  
Baby, you and me  
To become reality  
In the perfect love fantasy
