I want to
You know that I would want to
It makes me feel bad
But I've been waiting for a long, long time

I wanted you
And want to
Long before you
I want to
And I've been waiting for a long, long time

I want to
I always wanted to belong to
The freak scene
Or anyone who had set their mind, mind to

Never follow suit again
Because they have to
I want to
I always wanted to belong, belong to

You want to
You said you didn't want to
It makes me feel bad
Because I could never bring you

You want to
You wanted to
But never dared to
You want to now
But I've been waiting for a long, long, long time

We will never follow suit
We will never follow suit
We will always stay off route
