When you look at me
Tell me what you see
Do you see no love at all?
Or do you see in me
What you always see
In every girl that you fall for?

I will show you how love is meant to be
Just watch and learn and listen to me.

Will you ever see the day?
Heartache leads astray
Good love will always come from me.

Will you ever learn to love without a little doubt?
Good love will always come from me.

When you look away
Is it mean to say
That she haunts you night and day?
And does it hurt your heart when I say:
Let's start to heal the part that's been torn?

Don't you see that
I'm really worth a try?
And I say to you I know just what to do.

(X3)

Will you ever see the day?
Heartache leads astray
Good love will always come from me.

Will you ever learn to love without a little doubt?
Good love will always come from me.
