We gotta make a new direction  
We've gotta make it all alone  
Well have you heard the news today?  
The stage is ours to blow away  
Now that we've cleared a little more room to move

We're walking down this long dark road  
And the lights fade out the further we go  
No one's gonna hold us back (anymore anymore oh no)  
We thought the grass would be greener, but now we  
know its dead

Whoa oh oh oh - we made it  
Whoa oh oh oh - never let it go  
Whoa oh oh oh - on our own  
Whoa oh oh oh - we made it  
Whoa oh oh oh - never let it go  
Whoa oh oh oh - on our own, on our own

Best friends, best friends forever  
You said best friends for ever  
Best friends, best friends forever  
You said best friends forever

Whoa oh oh oh - we made it  
Whoa oh oh oh - never let it go  
Whoa oh oh oh - on our own, on our own

Whoa oh oh oh - we made it  
Whoa oh oh oh - never let it go  
Whoa oh oh oh - on our own  
Whoa oh oh oh - we made it  
Whoa oh oh oh - never let it go  
Whoa oh oh oh - on our own, on our own

Best friends, best friends forever  
You said best friends for ever  
Best friends, best friends forever  
You said best friends for ever
