Go ahead ... say it again ... you didn't mean to hurt me  
Go ahead ... say it again ... you're so very sorry  
I'd like to snap your head off your shoulders  
Pinch your brain til it smolders  
Etch my pain deep into your skin  
You're very sorry, you didn't mean it, Oh  
Go ahead say it again, go ahead say it again  
Did I make you feel better ... Maybe for a while  
Did I make you feel normal ... Well you know I'm a liar  
Did I make you feel better ... Did I steal your fire  
Did I make you feel normal ... Well you know you'll be  
fine  
Go ahead ... say it again ... about how you need me  
Go ahead ... say it again ... about how you love me  
I'm some kind of diamond on your finger  
I'd like to snap your head off your shoulders  
Pinch your brain til it smolders  
Etch my pain deep into your skin  
You're very sorry  
You didn't mean it  
Go ahead say it again ... go ahead say it again
