She'd shake it up it was hard to make out
Now it's plain to see
I couldn't cook to save myself
Found my life a recipe
I never looked at her this way before but now she's all I
see
Alison's starting to happen to me

It's so mesmerizing can't describe it all that inside, hey
No one's heard her last name
I ain't asked so who am I to blame
An earthquake started boiling underneath my feet
today
Alison's starting to happen to me

This world is topsy turvy and it is mine to eat
She's a pebble in my mouth and underneath my feet
She's the puzzle piece behind the couch that made the
sky complete
Alison's getting her tit pierced
Alison's growing a mowhawk
Alison's starting to happen to me
