I've been waiting for someone
Know what to do if I don't say nothing
Make my body go, go, go, go
Body go, go, go, yeah

Got me laying in bed all day
Got me showing up to work all late
He got me like, oh, oh, oh, oh
Got me like oh, oh, oh, oh yeah

Baby I, I give in, when you're in control
It don't be near, no talking now
I wanna say no
But the way you do me
Just don't understand

[Chorus]
The way you make me,
The way that you make me
Feel like a woman, feel like a woman
Feel like a woman, feel like a woman
Like you
The way that you loving
That... be nothing
Make me feel like a woman, feel like a woman
Feel like a woman, feel like a woman
Like you

I ain't gotta tell you where to touch me, yeah
From the spot, boy without a map
Work me like, go, go, go, go
Oh it's like go, go, go, you

Know just how to fill me up
Love overflowing out my cup
He got me like, oh, oh, oh, oh
Got me like oh, oh, oh, oh yeah

Baby I, I give in, when you're in control
It don't be near, no talking now
I wanna say no

But the way you do me
Just don't understand

[Chorus]

The way you make me,
The way that you make me
Feel like a woman, feel like a woman
Feel like a woman, feel like a woman
Like you
The the way that you loving
That... be nothing
Make me feel like a woman, feel like a woman
Feel like a woman, feel like a woman
Like you

Baby I, I never dreamed a love better than this, no
Got you flying on high, you make it different
Don't need no hands
You know everything and I'm proud of it
Treat my body like it's candy to a little kid
So change me, and my body
How you make a woman feel

Baby nobody, nobody can make me
Can never make me feel the way that you do
Feel like a woman, feel like a woman
Feel like a woman like you
It's not just about the way that you touch me
I'm talking bout the way that you love me
Baby nobody, nobody can make me
Can never make me feel the way that you do
Feel like a woman, feel like a woman
Feel like a woman like you
