Hey, baby, I got a big idea  
Why don't fall in love out here under this river of stars  
And let these hearts do what they were meant to do  
Hey, Darlin', I wanna make things perfectly clear  
If we could put our heads together  
We could change the world forever  
Just like when the atom split  
I'm talking bigger than an Elvis hit  
I got a big idea, I got a big idea

Well, B T Barnum and Buffalo Bill  
Got everybody rockind with a Big Top bill  
Orville and Wilbur had a crazy thing  
Go fly, said the boys put the world on it's wings  
Coast to coast and parkind meters  
Home computers and margheritas  
If that monkey's monking  
Making poaching in a white out  
Baby, there ain't no doubt

Hey, baby, I got a big idea  
Why don't fall in love out here  
Under this river of stars  
And let these hearts do what they were meant to do  
Hey, Darling, I wanna make things perfectly clear  
Now if we could put our heads together  
We could change the world forever  
Just like when the atom split  
I'm talking bigger than an Elvis hit

MP3s and Harry Potter best sellers  
The mark you see and automatic tellers  
The mother of invention is necessity  
Honey, star off with me

Hey, Baby, I got a big idea  
Why don't fall in love out here under this river of stars  
And let these hearts do what they were meant to do  
Hey, Darling, I wanna make things perfectly clear  
Now if we could put our heads together  
We could change the world forever  
Just like when the atom split

I'm talking bigger than an Elvis hit  
I got a big idea, I got a big idea  
I got a big idea, I got a big idea
