Lots of lovin, lots of lovin...

A sweet serenade, sip lemonade  
As we laid inside the shade  
My heart was captured when you possessed it  
Carressed and blessed it, even suggested  
You love me and I love  
And together, it would just be us two  
I would protect ya, in your moment of fear  
Relax, lover come here  
And let's create this heavenly fantasy  
When you lay next to me  
I need you, and only you, to give me more  
Tender love right down to the core  
If you could read what's on my mind  
You will find my feelings are genuine  
Day after day, you're the one I'm thinking of  
With lots of love

Lots of lovin, lots of lovin...the heat

Some say the blacker the berry, the sweeter the juice  
Make love everyday, okay, produce  
I ride through the tunnel of love, share a milkshake  
Carve our name in a tree by the lake  
Look in your eyes 'cause I miss you much  
The way you say, "I love you, C.L." and your gentle  
touch  
We reminisce with a french kiss  
And out of all the girls, you're the first on my list  
The only one now, and truly for life  
My fiance and future wife  
Now you realize, you're the one I'm thinking of  
With lots of love

Lots of lovin, lots of lovin...the heat

You want to be treated like a queen, stroked like a  
kitten  
Every night you're the mitten I'm fittin'  
Tease your lips with the tip of my tongue

And there's no doubt about it, lady, I'm strung  
On your love, looks, and affection  
You qualify, top choice selection  
Woman of a darker breed  
Mmm, cutie, you got what I need  
Pour the champagne and toast the glass  
Taste, but don't drink too fast  
'Cause we got many nights to cuddle by the fireplace  
You blush when I touch your face  
Now you realize you're the one I'm thinking of  
With lots of love

Lots of lovin, lots of lovin...the heat

Allah made you beautiful and youthful  
So I feel giving you love is suitable  
A walk by the beach, watch the sunset  
Love is strong, like when we first met  
Wake up in the morning, see your face  
And I feel noone can take your place  
Ever, so don't even think about it  
I need your love and I can't live without it  
Baby, you're the one I'm thinking of  
From C.L. Smooth, with lots of love

Lots of lovin, lots of lovin...the heat
