You don't know if you want me
I know that I want you
You don't know if you love me
I know that I love you
You don't know what it is
What it is that you do

You're scared of your feelings
I'm not scared of nothing
You don't know what you're needing
But I believe something
You don't know what it is
What it is that you do

What it is that you do
When you're talking
Walking after midnight
Dancing with my heart
Barefoot in the moonlight

Every ounce of innocence
Poured out for the world
To believe that dreams come true
You haven't a clue, what it is, what it is
What it is that you do

You know all about science
Chemistry's calling
Philosophers deny it
But hearts are still falling
Even Einstein knew
One and one is still two

What it is that you do
When you're talking
Walking after midnight
Dancing with my heart
Barefoot in the moonlight

Every ounce of innocence
Poured out for the world
To believe that dreams come true

You haven't a clue, what it is, what it is
What it is that you do

What you think's wrong
Might be right
What you think's strong
Might lose the fight

Baby, I know
That love prevails
Baby, turn around
Now, turn around

You don't know if you want me
I know that I want you
You don't know if you love me
I know that I love you

You don't know what it is
You don't know
You don't know
What it is that you do

What it is that you do
What it is

What it is that you do
What it is

What it is that you do
What it is
