YouÃ,Â´re there in black and white
Hundreds watch you every night

YouÃ,Â´ve been starring in a film on every weekend
On video and stills with all of your friends
YouÃ,Â´re there in black and white
Hundreds watch you every night

You cannot hide
You cannot hide
You cannot
Cos we can see you every where / in the daytime
We can see you every where / in the nighttime
We can see you every where / for a lifetime
We can see you every where

YouÃ,Â´re great in every scene
You very natural
It's As if you cannot see
The spotlight on you
But when you fluff a line
The director says youÃ,Â´re doing time
You cannot hide...

When youÃ,Â´re walking home
In the evening afterdark
Remember donÃ,Â´t hide
Show your best side
Cos your the star in a film...

You cannot hide
You cannot hide
You cannot hide
You cannot hide
You cannot.....
