"Chemically Free"

Visit "[Chemically Free](#)" on MotoLyrics.com

I'm so glad to see you
Hear the things that you do
are so chemically free
it's a wonder to me
you're still smiling
I hear you're top of the heap
you own nothing that's cheap
and how is London town
is it getting you down, just lately

Now you're on top of the world
Looking down on the nation
You're the boy with the girls
Who's above all creation
You're the man with the plan
Who's going to do all he can
for himself

Did you buy all we sell
all that you took from us well
we'll say loves not for sale
and have I hit the nail
you've been holding
have all the friends that you've made
for the prices you paid
come to lie at your feet
and worship with you what you made

Cos, you're on top of the world
Looking down on the nation
You're the boy with the girls
Who's above all creation
you're on top of the world
Looking down on the nation
You're the boy with the girls
Who's above all creation
You're the man with the plan
Who's going to do all he can
for himself

I'm so glad to see you

Hear the things that you do
are so chemically free
it's a wonder to me
you're still smiling
I hear you're top of the heap
you own nothing that's cheap
and how is London town
is it getting you down, just lately

Cos, you're on top of the world
Looking down on the nation
You're the boy with the girls
Who's above all creation
you're on top of the world
Looking down on the nation
You're the boy with the girls
Who's above all creation
You're the man with the plan
Who's going to do all he can
for himself

I believe you
I believe you
I believe you

can you remember when we (???????)....

I believe you / we believe you
I believe you / we believe you
I believe you / we believe you

can you remember when we (???????)....

I believe you / we believe you
I believe you / we believe you
I believe you / we believe you

You should have told us
that you never meant a word that you said.
