It's warm by the river, the weir keeps us clean  
The woodsmoke and cigarettes are all that we need  
Marking the dirt with twigs and simple words spoke  
Kicking the dust so we can just

Dance the dance that plays with fire  
Play guitar and play inspired  
You said that you would leave not ever  
Underneath the sky forever

It's cool by the sea when the pavement is hot  
We take a walk sown there to see what we've got  
An old man collecting fifty beautiful words  
Cleaning the beach so he can teach us to

CHORUS

It's cold by the pane glass on the high street we played  
But there's always a penny in the music we made  
So far from home with no means of return  
Burning bridges, so we always

CHORUS

We're so far from home  
No need to return  
There's so much that we have taught  
And so much that we have learned
