I can't believe our lives  
Were meant to be like this  
Gotta leave with a spaceship  
And forget about this world  
I'll watch your freak show  
High up from above  
Just spin around  
Get lost in outer space

Let's get stupid drunk silly and zombie like  
So I can cope in this life without losing my mind

Numb and indifferent  
I pledge my time to shit  
Don't wanna hear about it  
It's just a waste of time  
It's time to celebrate  
Cause I'm leaving tonight  
Never to be found  
I'll wear a great disguise  
Stick:  
Endlessly, and certainly  
I crave for my own world to be mine

Ref:  
This aint no life for me, this aint no life at all  
So take me away  
Take life as it comes and not fade away  
Like the rest of you all

Ref:  
This aint no life of mine, this aint my life at all  
So take it away  
I'd rather do what I please and not fade away  
Like the rest of you all  
Take life as it comes, and make my own way  
It's my new world order
