Listen won't you listen to what I'm gonna say right now
Tell me won't you tell me why do I keep on chasing you
down

Girl set the record straight you been playing cat and
mouse
Flirting is my middle name so lets stop standing
around

And party right dance all night baby is gotta be now or
never
Party time move your spine baby is gotta be now or
never
Because I feel so high
High until the music stop, stop, stop, stop
Darling you and I together girl we gone rock, rock,
rock, rock

Fever feel the fever come on and touch me I'm burning
now
Cool me won't you cool me with a lil dentine ice mouth
to mouth

Ain't no place I'd rather be than loving you right now
You need to come in close to me baby make this
moment count

And party right dance all night baby is gotta be now or
never
Party time move your spine baby is gotta be now or
never
Because I feel so high
High until the music stop, stop, stop, stop
Darling you and I together girl we gone rock, rock,
rock, rock (ehh yoo)

Intensify feel the fire, Intensify feel the fire,
Intensify feel the fire, Intensify feel the fire,
Intensify feel the fire, Intensify feel the fire,
Intensify feel the fire, Intensify feel the fire,
Intensify feel the fire, Intensify feel the fire,

Intensify feel the fire, Intensify feel the fire,
Intensify feel the fire, Intensify feel the fire,
Intensify feel the fire, Intensify feel the fire

Party right dance all night baby is gotta be now or
never
Party time move your spine baby is gotta be now or
never
Because I feel so high
High until the music stop, stop, stop, stop
Darling you and I together girl we gone rock, rock,
rock, rock

Party right dance all night baby is gotta be now or
never
Party time move your spine baby is gotta be now or
never
Because I feel so high
High until the music stop, stop, stop, stop
Darling you and I together girl we gone rock, rock,
rock, rock
