feat. Estelle

[Hook]

A long time, when I wish you were all mine
I aint tryina wait, listen to ...
But whats a man to do
Say Im all confused, and you aint tryina choose
Whether I win or loose, baby
Yeah its all about you, all about you
Its all about you
Say its all about you, all about you
Say its all about you, all about you
Yeah its all about you, all about you
All about you

It been about me, Im a king from rep
My own millionaire style my swag on dip
Stay fresh in the freshest places
Flip papers, fly round bugattis and yachts
Holding knots, cremelations
Its like hitting the lotto winning
More money, more problems, you gotta be kidding
Id rather sit up in the Bronx and pily some shit up
I usually breaking down 8s and slams some sit ups
Boo, its tight times, let me hustle
Cause everything you want, Im near with all muscles
Cause when Im in the streets, we eating, more ruffles
Then we can play the sweets in vegas, all the doubles
Cause you the queen Im the king, be a rider
A man with a game plan stressin, aint no rider
So let me paint picture, stay criss, we providers
We real, realer than real, word to mamas

Kingpin chef in the town, keep your hunned
Ice on his neck and his arms, more money
Jump into the 250 john getting blunted
Pockets carry more than a stack, we all fronting
Rich black afrikan dons getting cedar
Shawty know better, lets blow, bring the beretta
Showing off the vault, you walk nigga, you welcomed
Or you can stay here and be rich with me, help em
Im just crazy with it, fly slick intelligence
He play high in the streets and flip pelicans
My whole click is in this bitch 10 elephants
Who stay fresher than us, thats irrelevant
True, yeah, nothing but a g thing
Whoa, yo they be coming through ...
Boo, I know its over baby, keep playing
Oops, Im out of energy, street king
